TEST WORDS

PRESENTED HERE IS A LIST OF DIFFICULT WORDS TO UNDERSTAND IF THE HEARING IMPAIRED PROSPECT HAS A HIGH FREQUENCY HEARING LOSS.

This list of words can also be used in your master-aided work when determining parameters for acoustic correction. You will find that these select words are wonderful for demonstrations and correction when selecting hearing aids.

YES, we know that lists are available all over the country, however, this list is a "cherry picked," list of tried and true words for sales and demonstrations!

**THIS LIST IS WONDERFUL
AND
YOUR MASTER AIDED CORRECTION,
WHEN DONE PROPERLY, WILL
SHOW GREAT IMPROVEMENTS AND HELP YOU TO SELL.**

The PB-50 list does the same thing, but you will find that when using our select list, differences in your discrimination scoring will be a more dramatic demonstration.
